REPUBLICAN NATIONAL COMMITTEE. Plans for the Campaign Discussed-More Officers Chosen.

New York, July 12th.—The Republican National Executive Committee to-day elected W. W. Dudly, of Indiana, Treasurer, and Colonel H. S. Woods, of Iowa, Sergeant-The conference was private, and lasted about twenty minutes. President Taylor, of the Indiana State League, and Foster,

President of the National League, and Foster,
President of the National League, addressed
the committee, suggesting plans for campaign work, saying the National Committee
—as decided by a resolution passed last
night—were desirous of acting in harmony
with the League Committees.

They separated with the suggestions. They separated, with the understanding that they would confer again this evening. Mrs. Foster also addressed the Executive

Committee on a plan of organizing Woman's Republican Clubs, which was favorably considered last night. Harris of North Carolina addressed the National Executive Committee on the 1:17‡.
situation in his State. His encouraging reports were heartily applauded.
Others followed, speaking on the promising indications for Republican success in

other States. THE EVENING CONFERENCE. New York, July 12th.—At the Conference of the Republican National Executive Com-mittee with the the Presidents of the Re-publican State Leagues and their committees to-night, the following was adopted:

Resolved, That the National Republican Committee recommends to each of the State Central Committee of the several States that they recognize State League organizations of the Republican Clubs and give them such aid and support as may be within their power. Secretary Humphrey, of the League, said to-night that the National Committee had requested that, as far as possible, all public meetings throughout the country should be held under the direction of the League and local clubs. This would not conflict with the work of the National and State Committees, who generally had charge of national and State speakers and their ap-

A Race War Now Going on in Crittenden County, Ark.

Memphis (Tenn.), July 12th.—There is great excitement prevailing at Marion, the county seat of Crittenden county, Ark. The county has been under negro rule since 1870, and nearly every officer of the county is colored. Several days ago warnings were sent through the mails to several prominent citizens to leave the county. These notices were sent, it is thought, at the instigation of D. W. Lewis and David at Pittsburg and Detroit were postponed on account of rain. both being under indictment for drunkenness and neglect of duty.

This morning 100 armed white men pro ceeded to clear the town of all the ringleaders. Lewis fled last night. Ferguson resigned to day and was given until to-morrow to settle up and arrange his books. The colored Assessor, together with several colored deputy cierks, were escorted to a train and given tickets and warned never to return. The whites stood guard all last night, fearing an attack, as the negroes outnumber the whites seven to one.

John Zachar Breaks an Alleged Fast of Fifty-three Davs. RACINE (Wis.), July 12th .- John Zachar, the faster, after abstinence from food for fifty three days, at last has been induced to eat. Zachar presents a revolting appearance. He has not shaved since he commenced his fast, and his hair and beard hang down over his face. He is terribly emaciated, being reduced from 180 pounds to 90, and his clothes hang to his body like coffee sacks. His eyes are dull and heavy, the lids dropping down over them as though there was not sufficient strength to hold them up. He reminds one of a person in the last stages of consumption. Train Goes Through a Trestle and Seven Persons are Killed. opyright, 1888, by the California Associated Press. ALEXANDRIA (Va), July 12th.—A train on the Virginia Midland Road went through the trestle near Orange Courthouse last night. Five persons were killed

outright, and forty were injured, a number eriously. The trestle through which the Virginia and Midland train fell is forty-eight feet high, was known to be weak, and the railroad company was engaged in filling it in. The engine was moving slowly, and had passed over most of the trestle, when the smoker, mail, baggage and express cars went down, dragging down the enginetender and two passenger coaches. Two sleepers remained on the trestle. The engine went down pilot-end foremost thus

This brought the South Carolinian to his eet. He was white with anger, and made a savage assault upon Blair.

The latter had said that the President might at least have sent his veto messages Congress in the language of a gentleman. Butler declared in angrage of a gentleman. Butler declared in angry tones that if the standard of a gentleman had to be estab-lished by the Senator from New Hampshire, t would be the greatest calamity that could befall the country. He also declared that with the facilities of a demagogue Blair had appealed to the soldier vote and at the same

time arraigned him for the manner in which he discharged his duties.

Blair rose very quietly to reply to what

MINORITY RULE IN THE SOUTH.

An old line Republican who went astray by a misconception of duty to conscience and supported Mr. Cleveland in 1884, writes to us from the far East: "I have yet to meet a person among the rank and file of Independent Republicans who is not heartily back and repentant of the grave mistake made. A principal reason is the recognition of the overshadowing question as to Congressional representation in the South, and in general, the enormity, after as before our great war, of a minority ruling a majority. If any one will compare the vote of 1886 cast by the minority in Ohio and Illinois with the vote cast the same year by the majority in Georgia, he will be astounded by the comparison."

Our correspondent has struck a key-note. In Ohio and Illinois and all other Northern States all the people are invited to the polls on equal terms and the ballots are all counted. the question.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of tubercle germs into the system, and where these germs fall upon suitable soil they start into life and develop, at first slowly, and is shown by a slight tickling sensation in the throat, and if allowed to continue their ravages catarrh. Now all this is dangerous, and it allowed to proceed will in time cause death At the onset you must act with promptness; allowing a cold to go without atten tion is dangerous, and may lose you your life. A FEW WORDS AS TO our colored Rhadame Silks at 90 CENTS. They are indeed wonderful value; our sales show that; but especially do the Goods show it. The quality surprises everybody. The fabric is built with a firm Silk back, with an honest face upon it, brilliant with natural **lusterandsmoothness** of finish.

The true character of the Raw Silk is here visible. We wish to emphasize the fact that these Silks are not dye-loaded, nor are the colors or fibers surcharged with substances to make them thick and weighty.

We believe that this 90-CENT SILK is equal to any of the Rhadames sold in this city at \$1 15 and \$1 25 per yard.

EXHIBITION BUILDING.

Something Every Sacramentan Should

Take an Interest In. The register at the permanent exhibition building shows that a large number of eighty of the teachers en route from the Sweeny. East to the National Convention at San Francisco, stopped over and spent an hour in viewing the products on exhibition. It is a well-known fact that the fruit at this ficult to keep the exhibit looking nice and fresh as it should to be attractive. He asks as a special favor that parties residing in in the city who can and are willing to contribute flowers once or twice a week, send in their names and the flowers will be called for. Nothing seems to attract the Eastern visitor more than California's flora, and a few handsome bouquets adopted: scattered here and there through. The conout the building livens up the entire exhibit. There are many citizens in the city and immediate vicinity who can with a trifling expense contribute fruit mines or quarries, bring in specimens and assist in this most excellent work. A specimen from the slate quarries of El Dorado was placed in position yesterday, and attracted no little attention. It is labeled: Dorado will present a mineral cabinet containing some fifty different varieties of The officers of this Association shall conadopted a regular system regarding it, which it would be well for the other contributing counties to follow. The following exhibits were handed in yesterday:

MYERS SENTENCED.

One of the Lowell Assassins Gets Ten Years for Grand Larceny.

John Henry Myers, one of the men who, according to his own statement, murdered old John Lowell, on his ranch in El Dorado county, was brought before Judge Armstrong in Department One of the Superior Court yesterday to receive his sentence for grand larceny, he having pleaded guilty to stealing Lowell's horses and Wilbur F. George, counsel for defendant,

moved for an arrest of judgment on the ground that the Court had no jurisdiction, cause the crime was not committed in this county. Judge Armstrong overruled the motion and sentenced the prisoner in the following language:

You having shown no reason why the Court should not now pronounce judgment on you, the sentence of the Court now is that you be confined in the State Prison at Folsom for the period of ten years from the time you shall have been received in said prison. The Court makes the further order that the commitment in this case be stayed until the defendant shall have been emoved to the County of El Dorado, there to answer to a charge of murder alleged to have been committed in that county the murdering of John Lowell, there t remain in the custody of the officers of E Dorado county to abide the result of a trial on that charge, and after such trial shall have been had, to be returned to the officers f this county to be delivered by them to the officers of the State Prison.

In the Police Court yesterday morning Charles Harris and J. B. Howland were held to answer before the Superior Court on a charge of burglary. The testimony showed that Harris went into the house of W. M. Henderson, at Sixteenth and N streets, and stole a ring, a gold watch and chain and a bracelet, while Howland kept watch on the outside. They stoutly ied stealing anything, and Harris, upo whose person the ring was found, claimed that he bought it in Philadelphia. PREVAILING DISEASES.

From a hundred reports received during the month of June, and embracing a large portion of the State, we learn that sickness s everywhere extremely limited, and that no serious epidemic prevails.

The warm days experienced during the month, and the general abundance of the fruit crop, has decidedly increased the frequency of cholera infantum, sporadic diarrhoe and dysentery, together with choleraic attacks from unripe or decayed fruit and vegetables, which, in many localities, were quite noticeable by their frequency.

As these are all, more or less, preventable diseases, induced by errors in diet, or bad hygienic surroundings, which are made more manifest by the increased temperature.

The politicians banded against him, and, jealous of his was written out from the phonographic popularity, either ignored or ridiculed him. It is not likely that, in withdrawing, Boulanger intends to remain quiet, or that the people of France will allow him to do so. During his recent visit to the provinces he was received with all the old enthusiasm wherever he chose to appear in public. His resignation was the result of a re-markable scene. Boulanger entered the Chamber to-day, for the first time since his return, and amid much confusion he took he tribune and moved a resolution for the

EDISON'S TRIUMPH.

New York, July 12th .- A phonograph will arrive at Thomas A. Edison's labora tory at Llewellyn Park in a day or two, which, when it is allowed to give forth the sounds which are contained within it, wil create no small degree of sensation. It wil repeat the tones of the eloquent voice William E. Gladstone, ex-Premier of Eng land. There is also sealed up in the littl nstrument a song by the diva, Adelina Patti, and a speech by Arthur James Bal-four, Chief Secretary for Ireland. Edison graphs, to England some months ago for this purpose. The phonograph will be here
